GLASS LINEA

Preliminary design guide

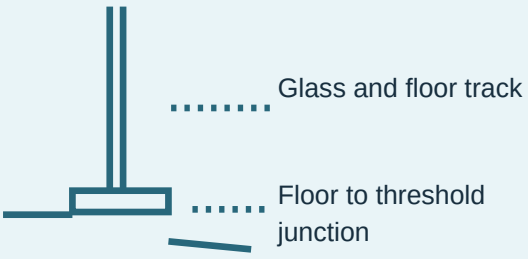

Prepare a request for windows, glass walls or aluminum façades.

What to include

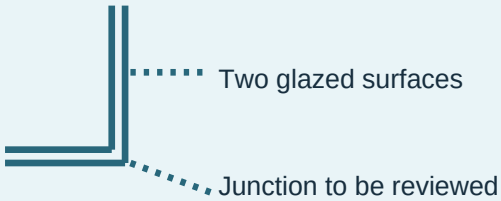

Geometry	Plans and elevations with opening sizes, quantities and units.
Opening	System type, panel positions and direction of opening.
Context	Project location, exposure and indoor–outdoor transitions.
Requirements	Finishes, glazing type and specified performance.
Installation	Site access, existing finishes and local requirements.

Preliminary diagrams

Threshold · Section

Corner detail · Plan

Illustrative diagrams without scale. Verify structure, sealing, drainage and system compatibility in the detailed design.
